

Driving Theory 4 All – an overview

What do we offer?

1. Online training for the DSA Theory tests. We cover: a. Car, Bike, ADI, PCV and LGV
2. We have a Crown Copyright licence and we always use the latest official DSA questions and practice hazard perception videos.
3. We offer free trials which include access to the questions, hazard perception videos, topic tests and mock theory tests.

Why choose DrivingTheory4All?

1. Subscribers have unlimited access to the test material and can take unlimited mock theory tests in preparation for the real thing.
2. Our tests have the same look and feel as the actual DSA tests, several customers have remarked on how similar we are and this has given them more confidence during the real test.
3. The ADI Part 1 test consists of 920 questions and is split into only 4 topic areas which are extremely

- long making them difficult to learn. We break each DSA topic into sub topics which contain less than 30 questions each. These sub topics provide easy benchmarks against which to measure progress.
4. We offer several methods of learning the material, meaning everybody should be able to find a method of learning which suits them.
 - a. Choose between revise mode and test mode.
 - i. In revise mode instant feedback is given to question answers.
 - ii. In test mode results are shown at the end of the test.
 - b. The Theory Wizard can intelligently guide a user from absolute beginner through to passing their test.
 - c. Topic tests can be taken – either against complete topics, or, by using top up tests, against only those questions which have not previously been answered or have been answered incorrectly.
 - d. Custom tests can be constructed using any mix of topics.
 - e. Our mock theory tests are generated randomly meaning it is highly unlikely any two tests will be the same. The question / topic balance of the mock theory tests is the same as in the real tests
 - f. When revising or testing it is possible to hide a selection of incorrect answers in similar fashion to the Who Wants to be a Millionaire 50 / 50 option
 - g. Print reports of topic questions and My Questions for revision away from the computer.
 5. We include 10 official DSA practice hazard perception videos (the DSA only licences a maximum of 10 clips). Each video can be viewed in one of two sizes to suit various screen resolutions and Internet

- connection speeds. Each video can be run in test mode or demo mode. In test mode, the user clicks a button when a hazards start to develop, and scores a mark out of 5 at the end of the test; in demo mode, the hazard is highlighted when the video is run but there is no user interaction.
6. My Questions and My Videos can be used to save questions and hazard perception videos for later review.
 7. Easy to read progress bars and full statistics allow users to monitor their progress
 8. We offer more features and more flexibility than you will find elsewhere.
 9. We also offer a pass guarantee meaning that if certain criteria have been met when using our site and a candidate fails his / her real test, we will extend his / her subscription on a free of charge basis until he / she passes.
 10. Our site is easier to use than books and CD's and we cost less.

11. We offer online support for anybody having problems.
 12. We always ask for customer feedback and act on it.
 13. Our customer feedback page provides a selection of feedback we have received.
 14. In addition to providing the official material we also provide revision and testing on road signs.
- help if needed. There is also a calendar facility which can be used to maintain booking information. This is new functionality which requires expansion and we would welcome instructor feedback / input. Additionally there are several information pages on the site covering core information relating to the tests and the Show Me / Tell Me questions for the ADI Part 2 and car practical tests.

General

1. Although the focus of this article is on the ADI Part 1 theory, we would also like to emphasise to those PDI's who are instructing with a Pink licence that our site provides everything their pupils will need to pass their car theory tests.
2. We also have a new section on the site aimed at instructors. Instructors receive a PIN code when they register which they give to their students. When the students register and enter the PIN code they are linked to the instructor account. The instructor can then monitor their pupils' progress and
